Jamalpur, Ahmedabad, Gujarat

Summary

An MSc IT student at GLS University with a solid foundation in core IT concepts through a completed BSc in IT. Enthusiastic and quick to learn, with a strong interest in applying academic knowledge to real-world projects. Actively seeking entry-level opportunities to begin a career in the IT industry and grow in a professional environment.

Education

Masters of Science in Information Technology (MSc IT)

GLS University, Law Garden,
Ahmedabad, Gujarat
Expected Graduation: May 2027

Bachelor of Science in Information Technology (BSc IT)

GLS University, Law Garden,
Ahmedabad, Gujarat
Graduated: May 2025
CGPA: 8.93

Skills

- **Programming Languages:** HTML, CSS, PHP, Javascript, Python(Django), Java
- **Database:** MySQL
- **Problem-solving skills**
- **Data Structures and Algorithms (DSA)**

Achievements

- **Academic Achievement:** Consistently maintained high academic performance
- **Competitions/Awards:** Ranked first in Code Xpress #17 in the I MSc IT second-year group, using Java

Academic Project

Sentiment Analysis Project

Description:

Developed a sentiment analysis application using Python and NLP techniques. The project processes user-generated comments to classify sentiments into positive, neutral, and negative categories.

Technologies:

Language: Python

Libraries: Pandas, Scikit-learn, NLTK, and Matplotlib.

Framework: Django

Key features include:

- **Data Processing:** Cleaned and preprocessed textual data using tokenization, stopwords, and stemming.
- **Custom Model:** Trained a machine learning model using a labeled dataset for accurate sentiment classification.
- **Results Visualization:** Exported insights to Excel and visualized sentiment distribution for easy interpretation.

CASA DESIGN STUDIO

Developed and deployed a responsive web frontend using React.js, implementing component-based architecture for better code reusability and maintainability. Ensured mobile-friendly design using CSS and responsive styling techniques. Focused on performance optimization, clean UI/UX, and seamless user interaction across devices.

Deployed on Vercel for scalable hosting.
